LAYOUT

UNIVERSITY ENROLMENTS

Birth Country of Int' Students

INFO

19/10/25

Title: Australia's University Enrolments 2024

Author: Nina Flouch

Task: To display the key Uni enrolment stats for both domestic and international students.

OPERATIONS

Components/ Operations used:

- line chart
- stacked bar chart
- Choropleth map
- Slider (interactive)
- Legend (interactive)
- Click-able points on graph
- selection box

Uses comic strip storytelling:

course types → student type
map → information

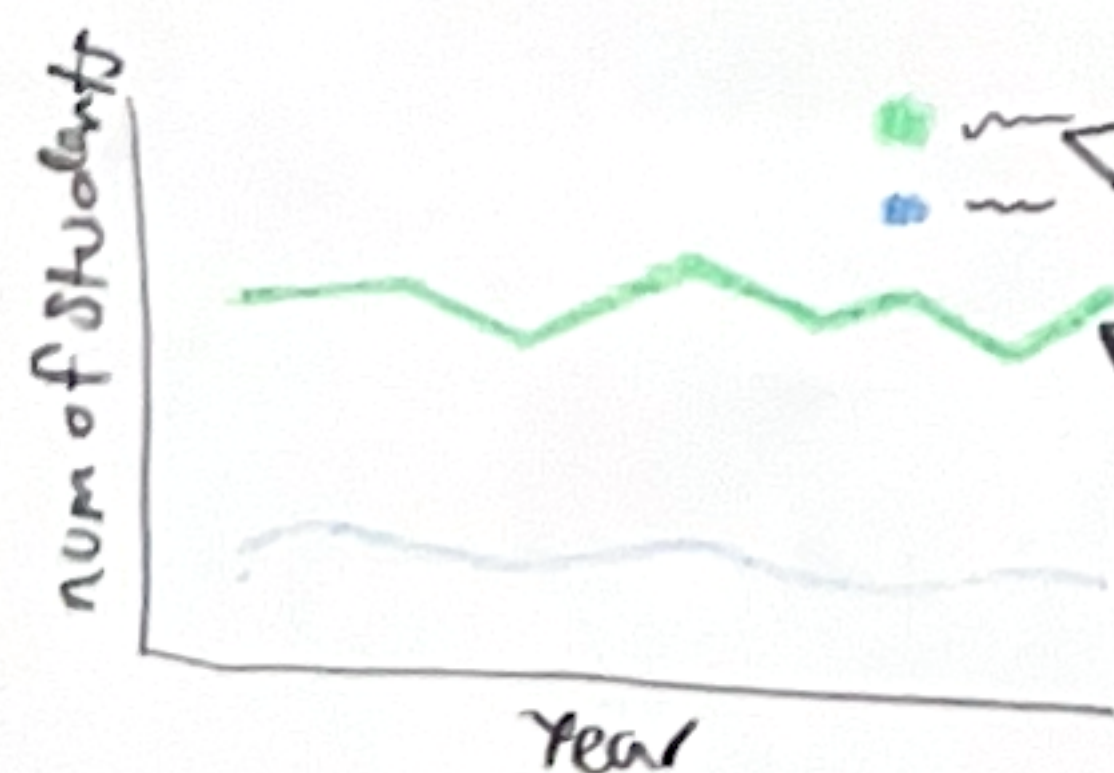

FOCUS

create a slide for map: number of students:
make points on map click-able too!

Select enrolment type:

- to show only chosen category in the bar chart

Show all ▼
Undergrad
Postgrad
Enabling
Non-award

can click the graph or the legend to spotlight a group

DISCUSSION

Pros:

- Different idiom types used
- Chance for consistent colours used
- Allows space for text/info

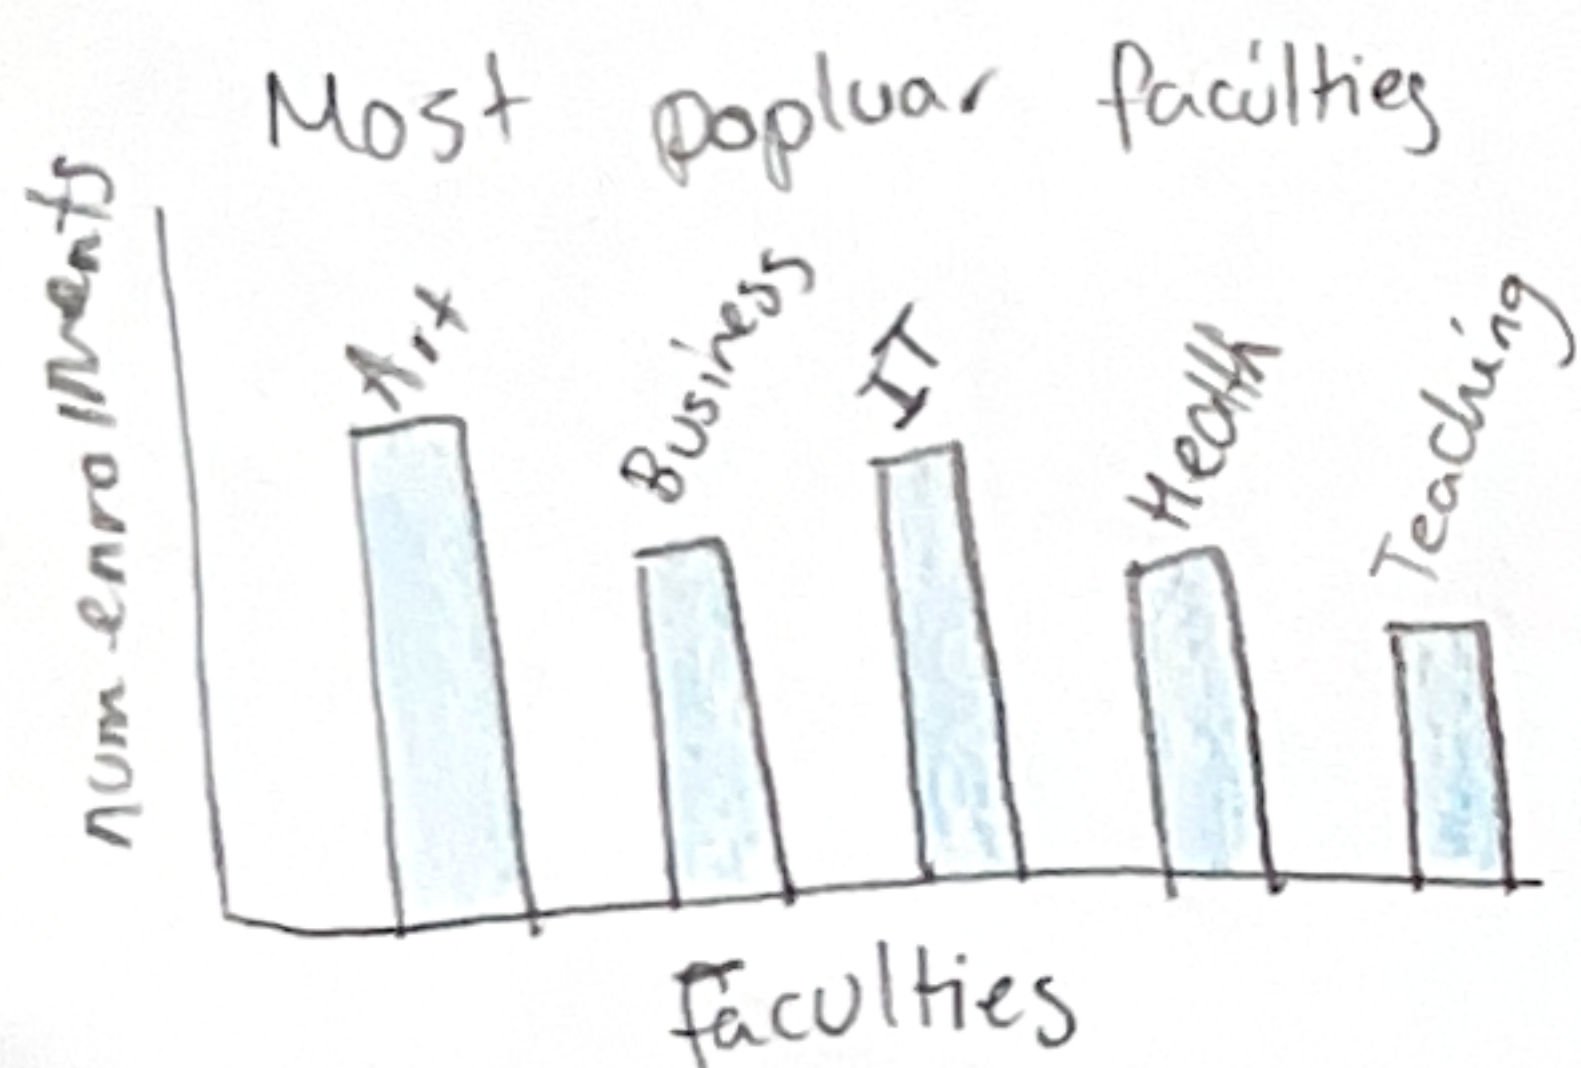

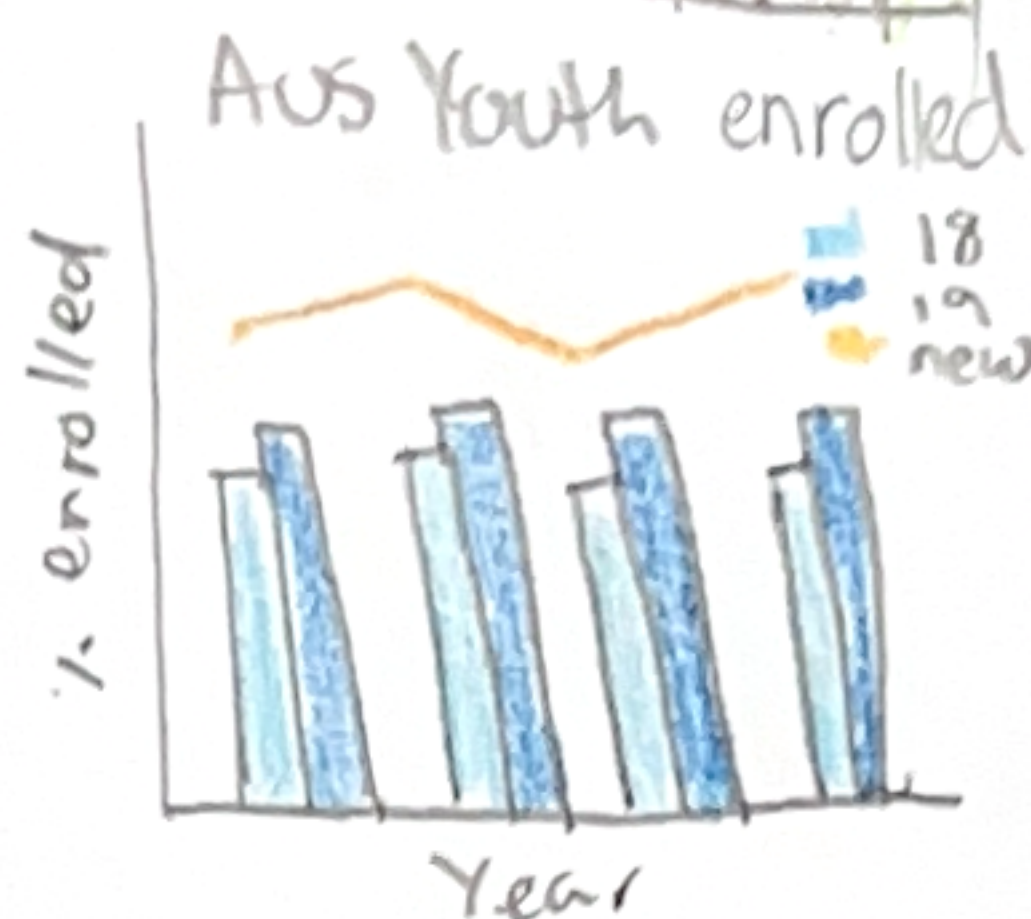

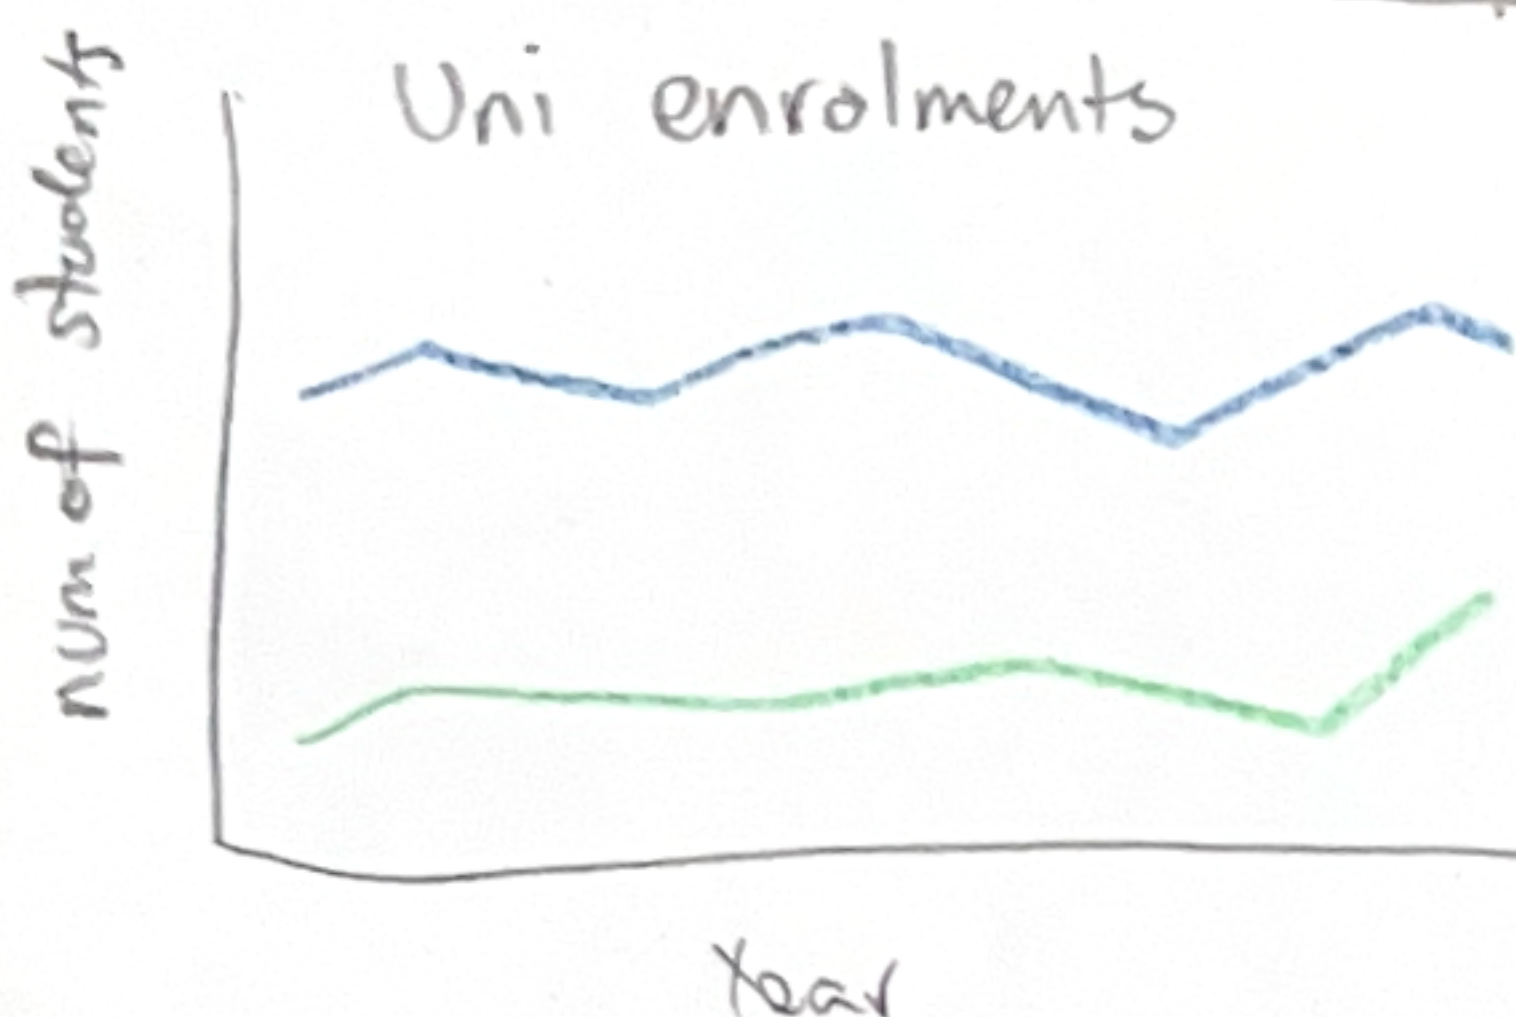

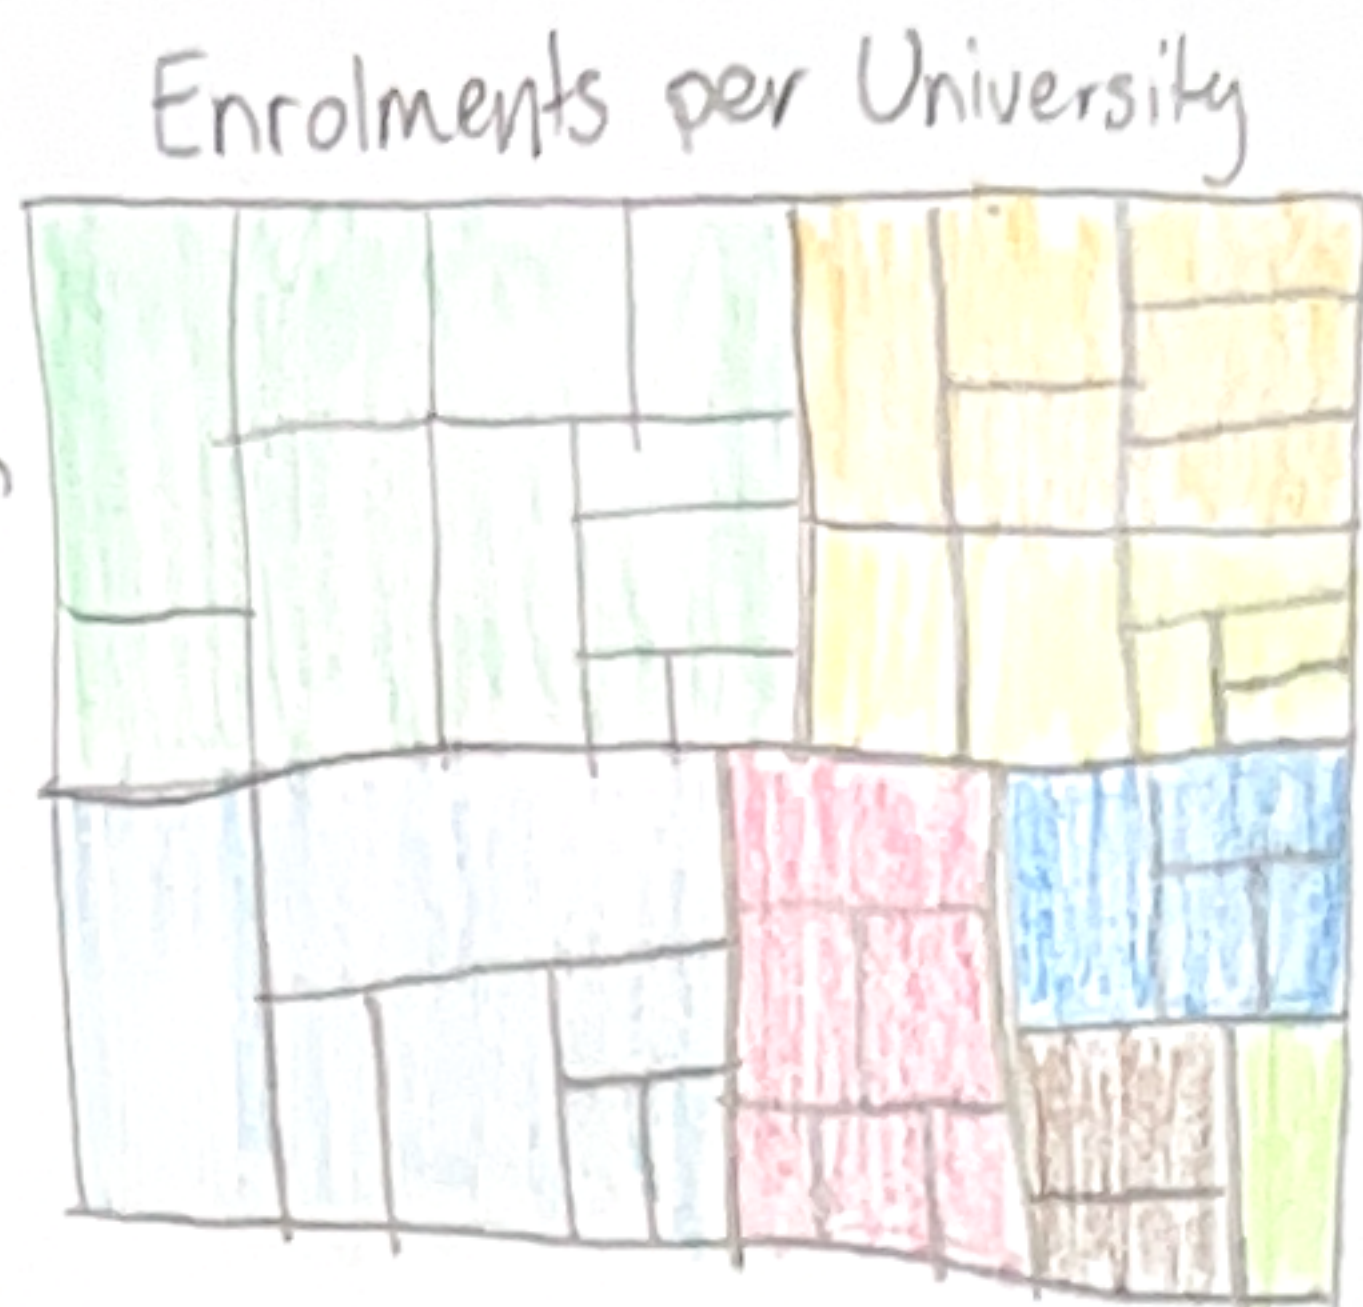

Cons:

- Maybe info is too low and should be first step.
- Need a margin b/w graphs otherwise too busy.

LAYOUT

Introduction to visualisation & education

Talk about major Uni in Aus

Information on the rise of certain degrees.

INFO

19/10/25

Title: Australia's University Enrolments 2024

Author: Nina Flouch

Task: To showcase the enrolment choices of uni-goers.

OPERATIONS

Components/Operations used:

- line chart
- bar charts
- tree map
- selection drop box
- clickable elements

Expected story telling order:

writing → tree map

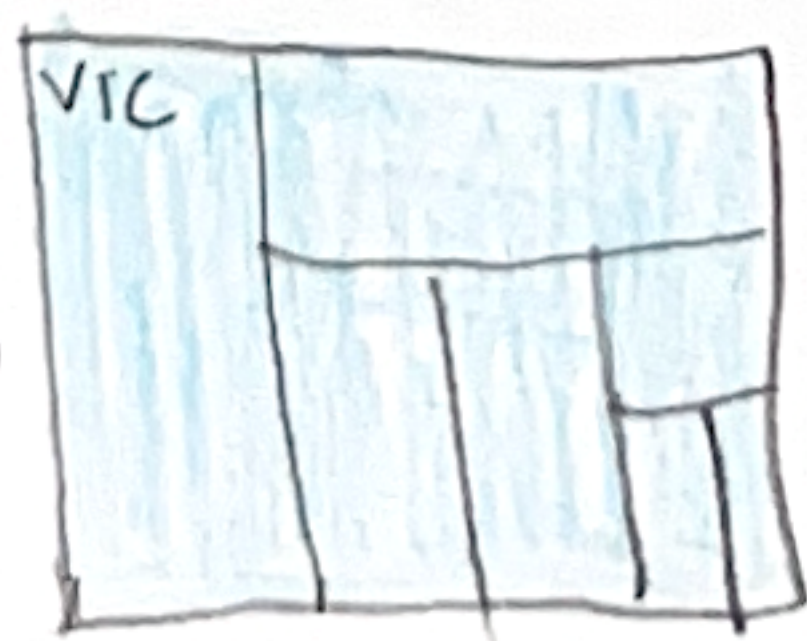

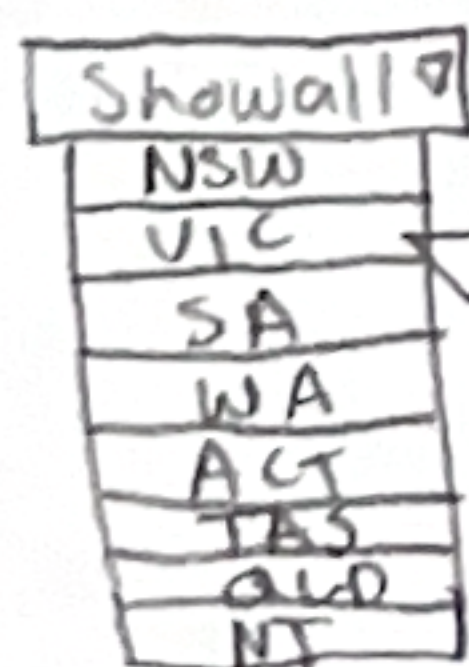

line graph → combo graph

bar graph ← text

FOCUS

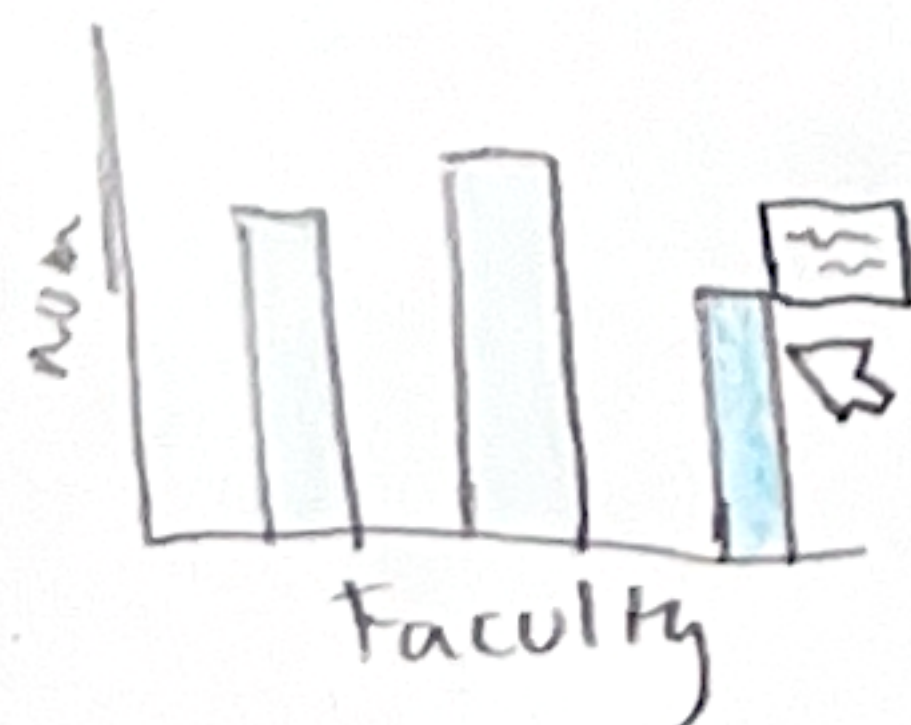

Selection to Spotlight States with the

treemap:

Also clickable bars w tooltip

selection on the Youth age groups graph too.

DISCUSSION

Pros:

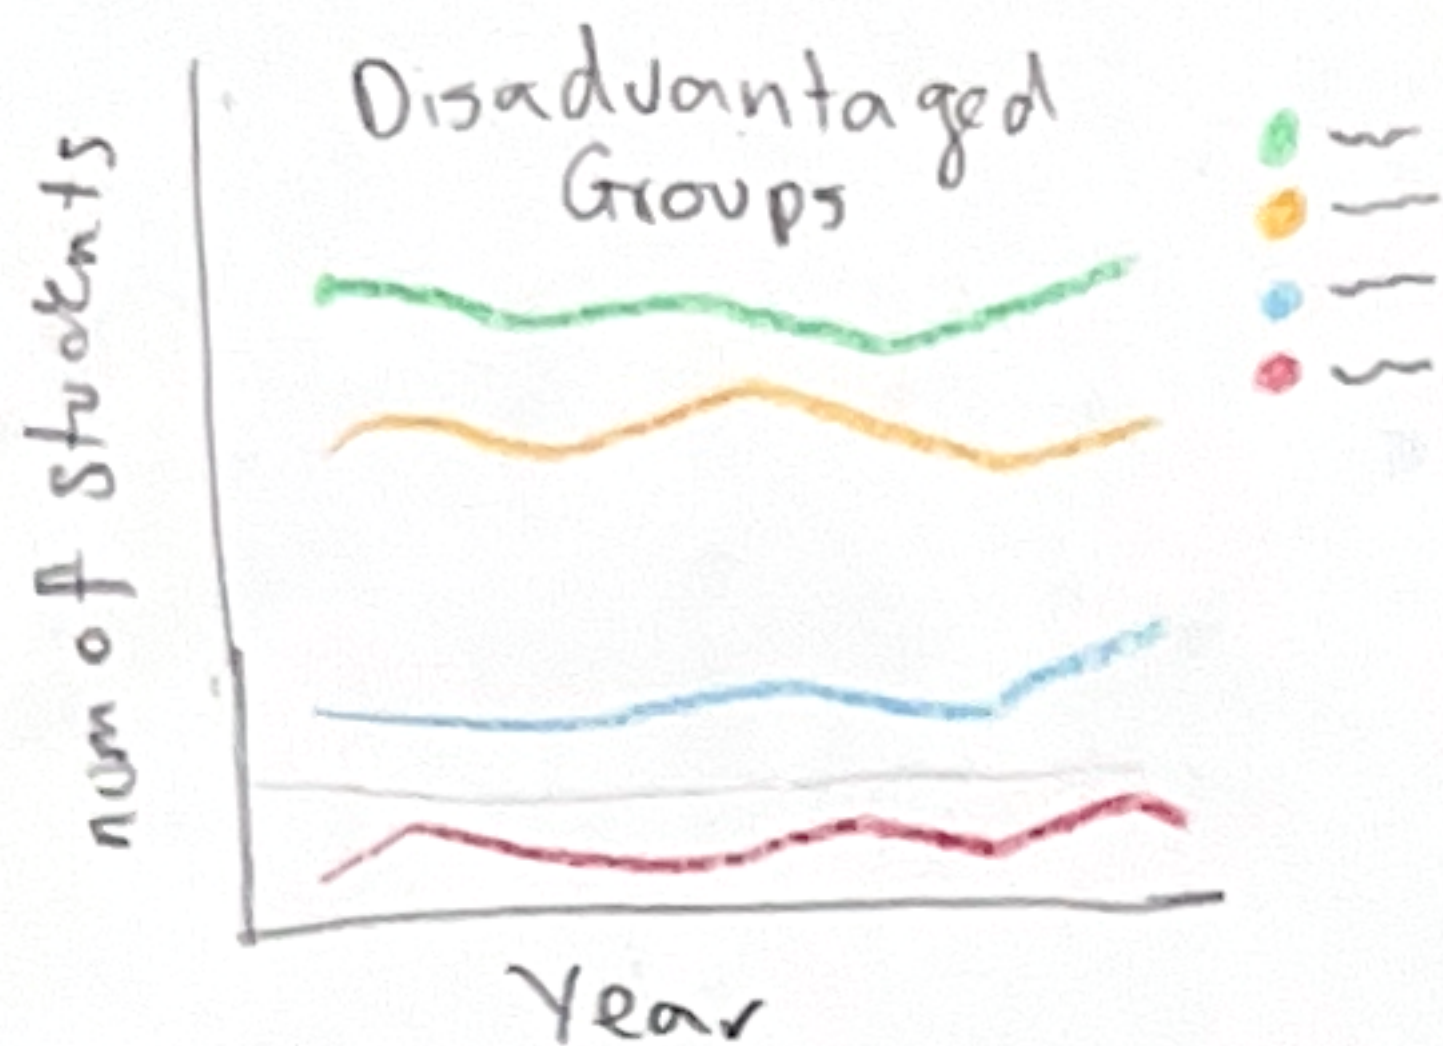

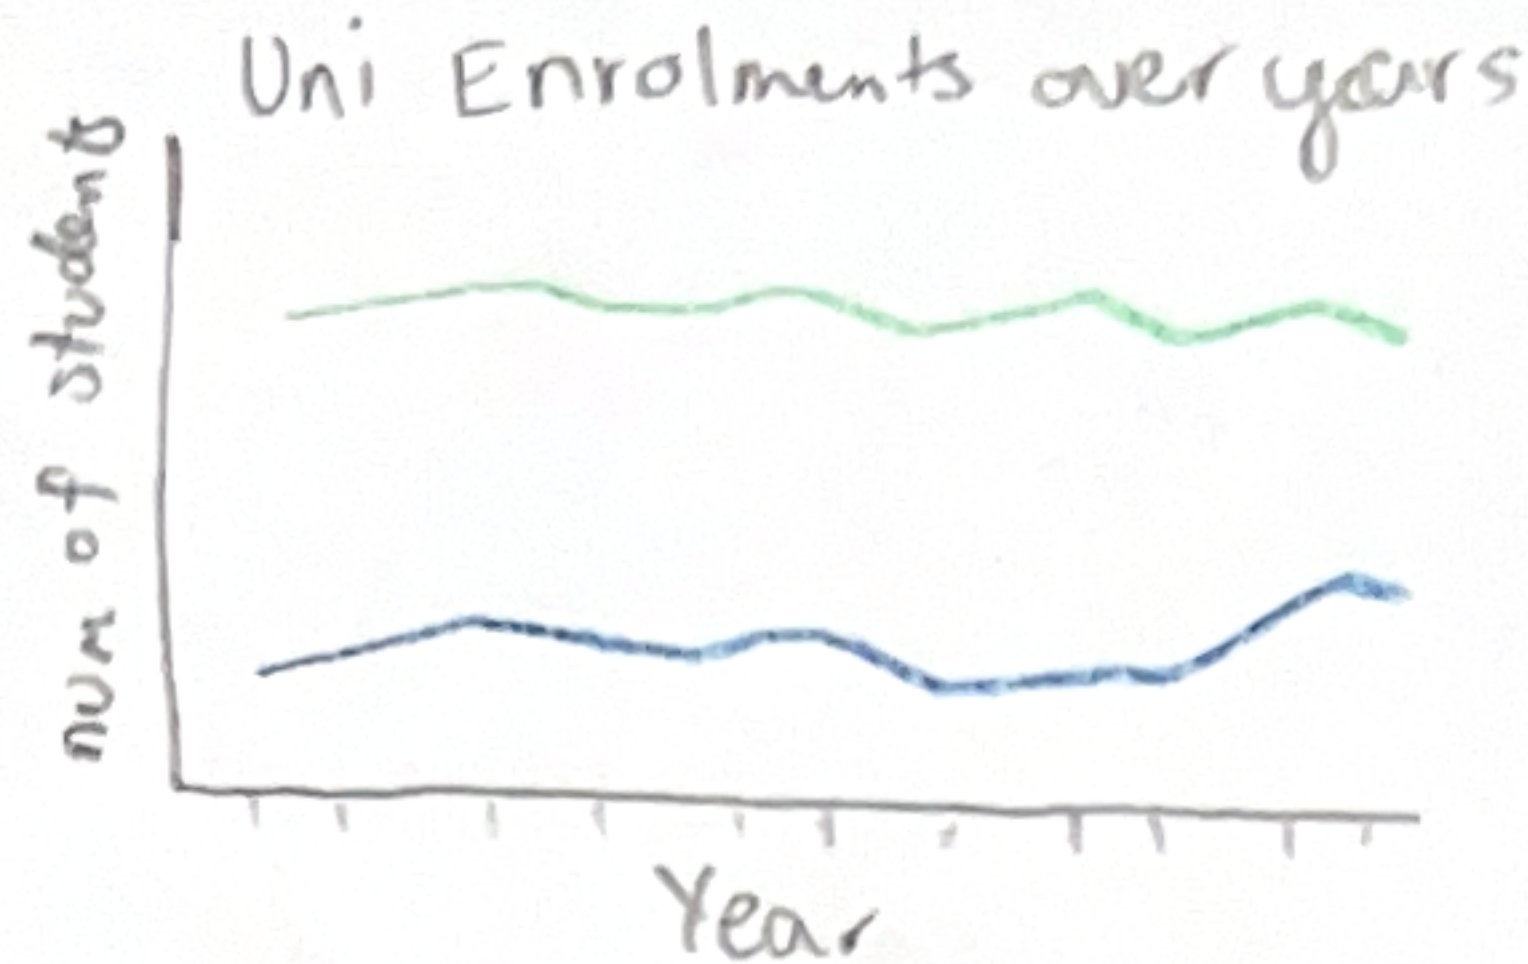

- Various idiom types
- Informative
- Many opportunities for user to highlight and focus on
- Good story-telling

Cons:

- No map
- Colours are a bit boring
- Tree map interactions may not be possible to code.
- Needs more interesting interactions.

LAYOUT

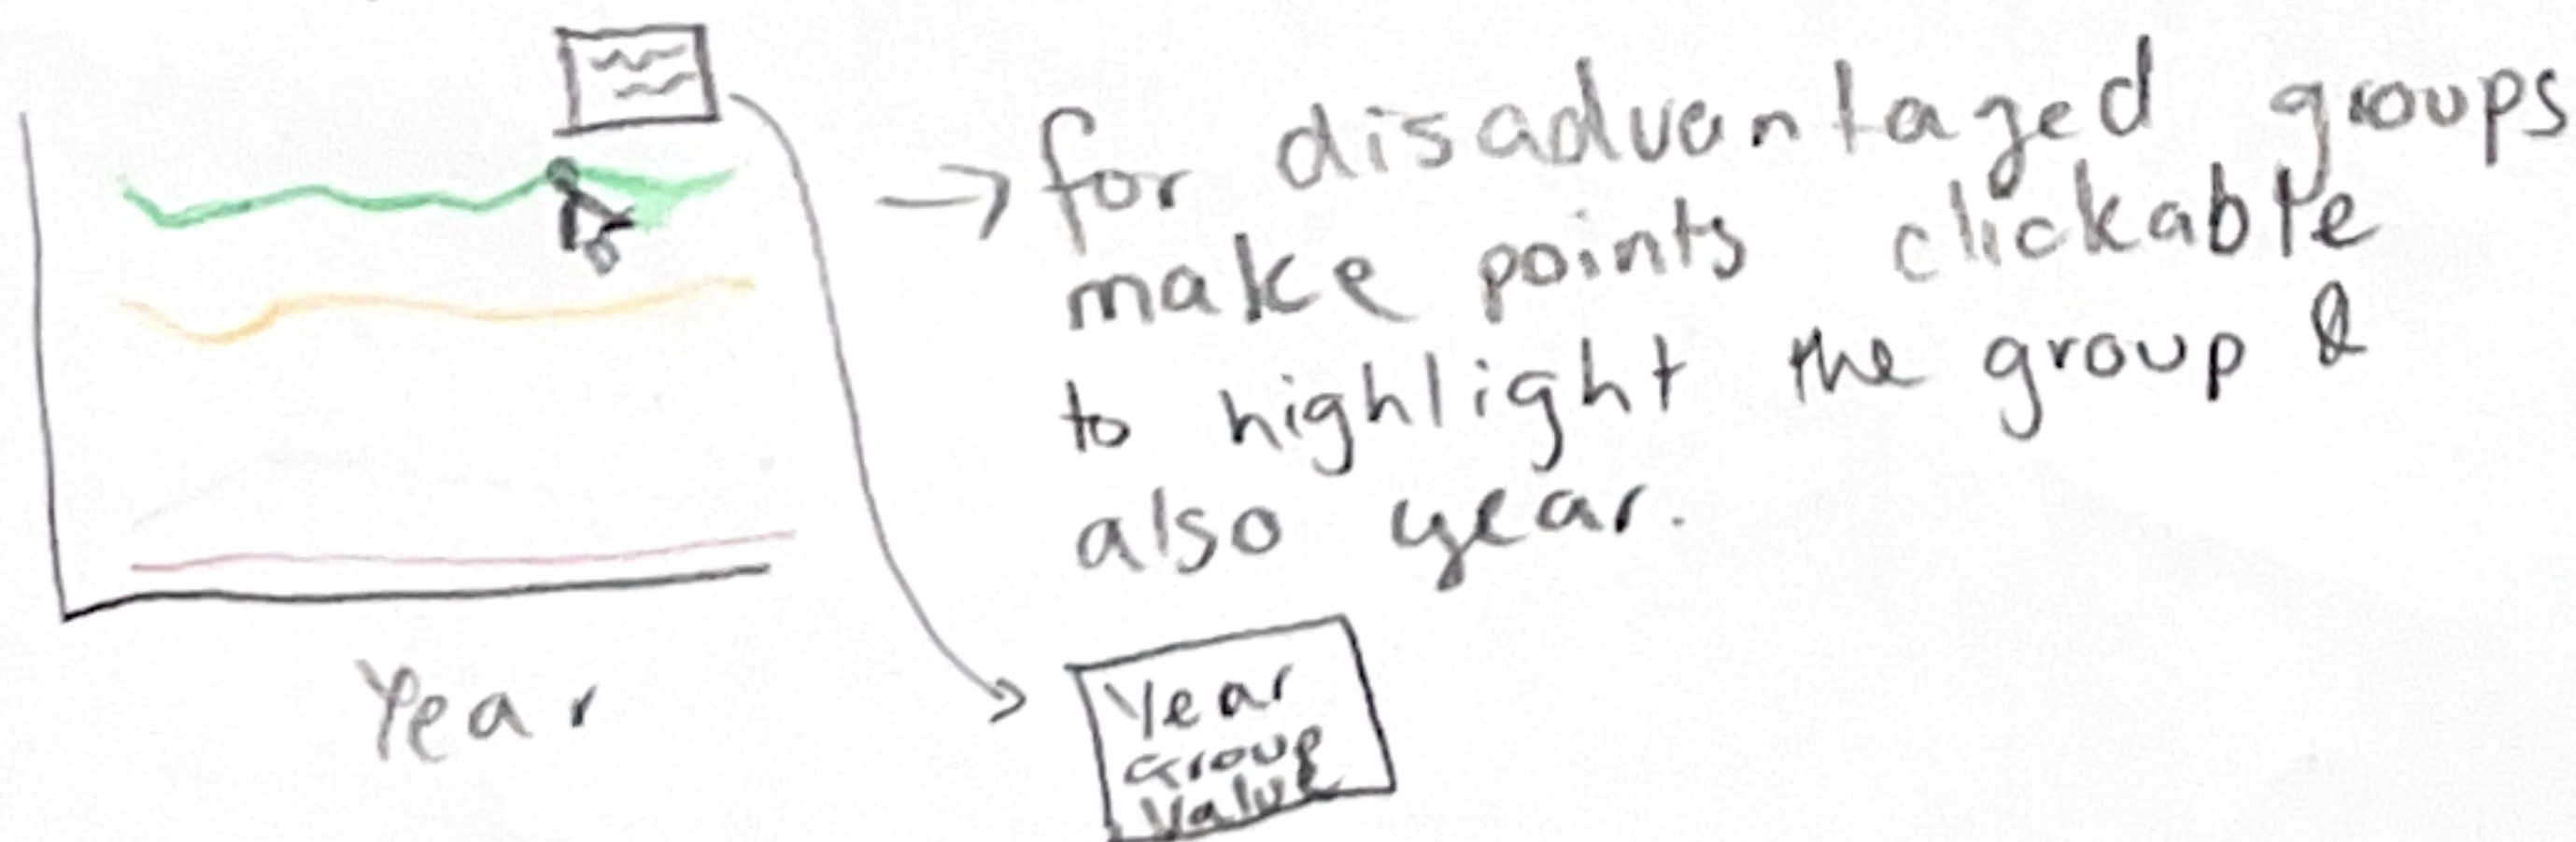

Introduction +
Information on
Australian Unis

Info on immigration
and international
students.

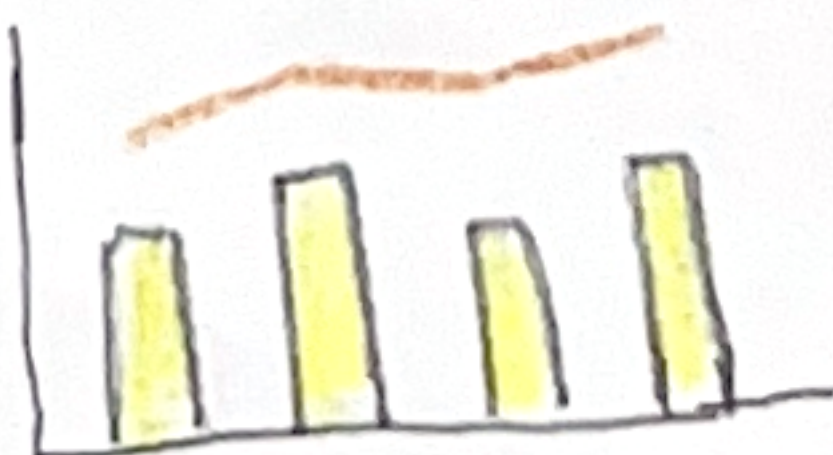

FOCUS

Slider for Map like sheet 2.

For Youth enrolments:

18 y/o

so after selecting it
only shows that age group.

INFO

19/10/25

Title: Australia's University
Enrolment trends.

Author: Nina Flouch

Task: To showcase the trends
with Uni enrolments
over the last ~10 years

OPERATIONS

Components/Operations:

- line chart
- bar+line chart
- choropleth map
- tooltip boxes
- adjustable graphs (selection variables)
- sliders
- comic strip story-telling

DISCUSSION

Pros:

- The colours are more clearly different compared to past sheets.
- Map is fun & adjustable
- Space for text & information
- Graphs can be adjusted to highlight desired elements

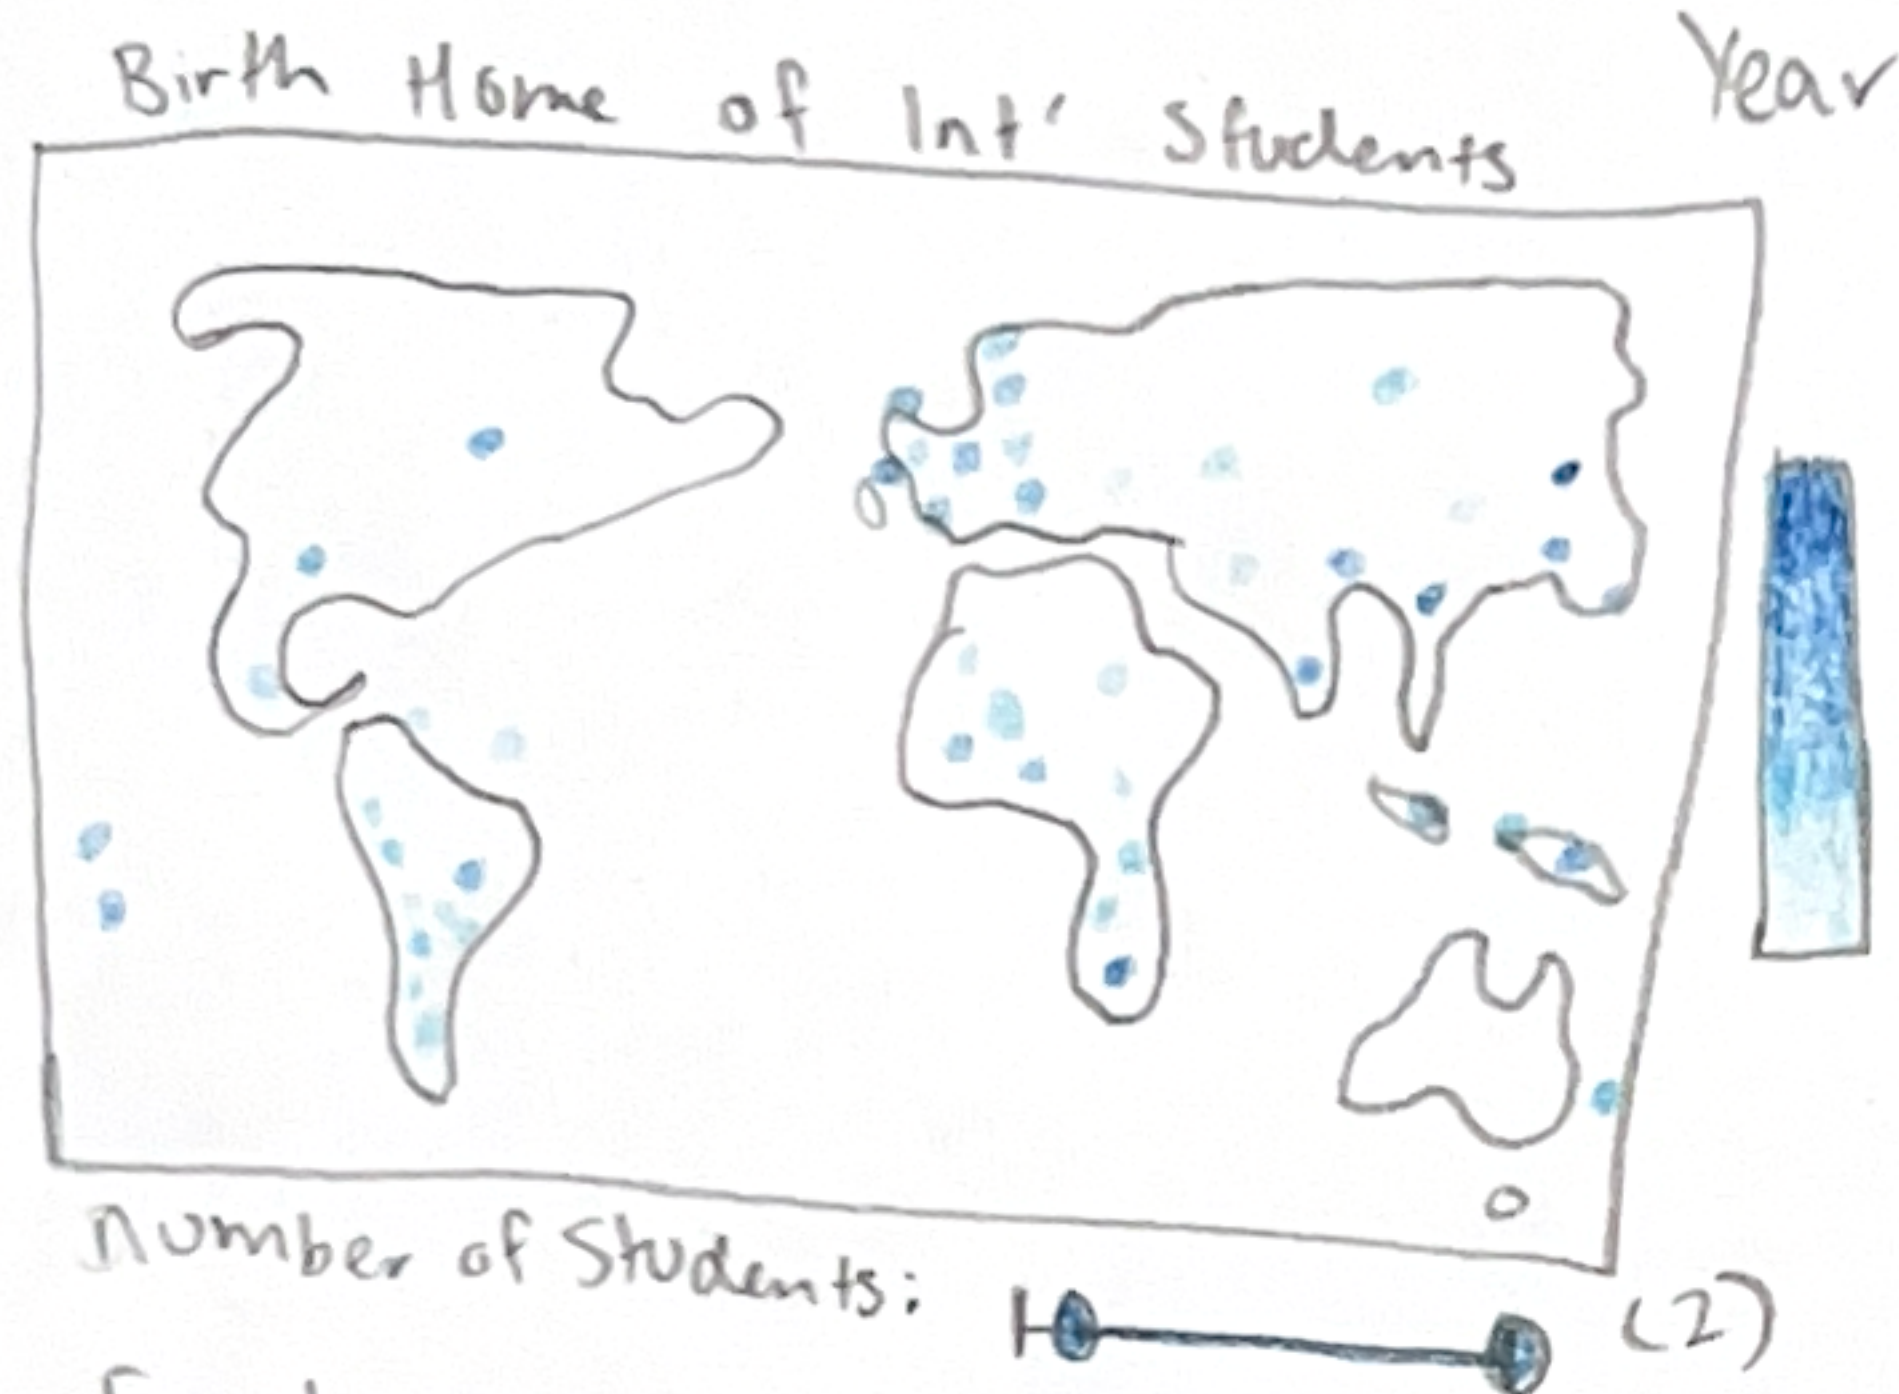

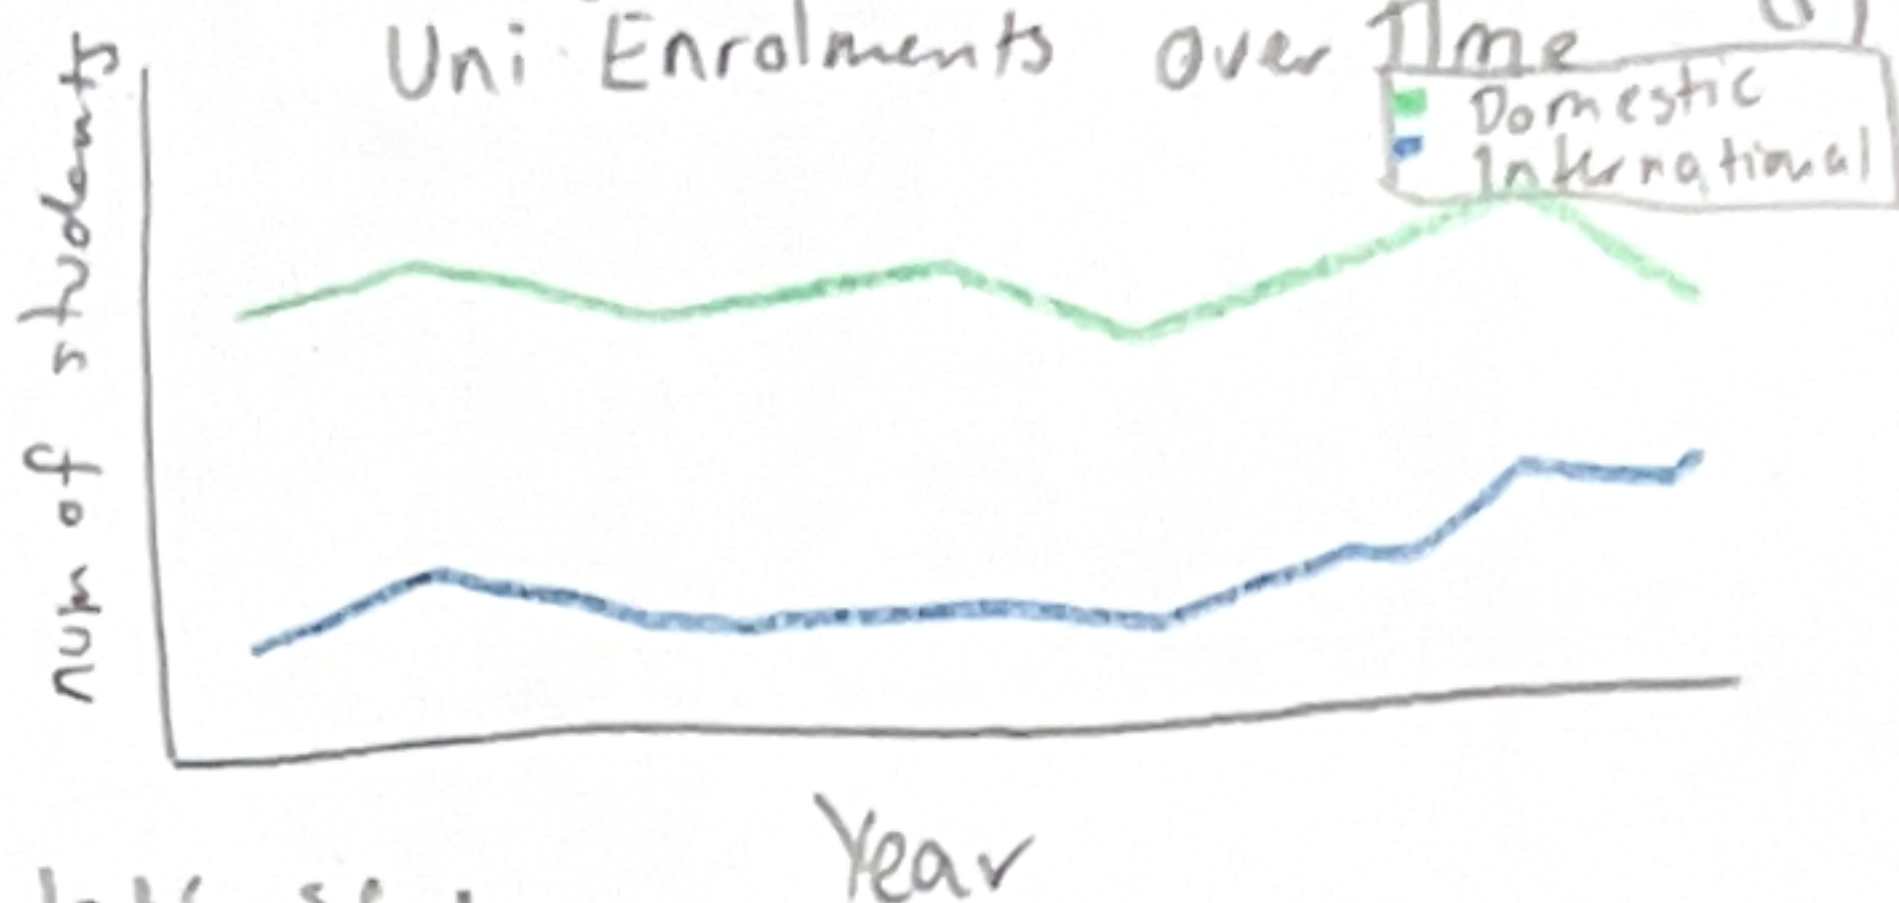

Cons:

- The Youth enrolments selection may not be codeable
- Too many line charts. (kind of boring)
- Is disadvantaged groups adding information? Might get rid of it for more space & text.

LAYOUT

noting trends in
enrolment over
the last 10 years.

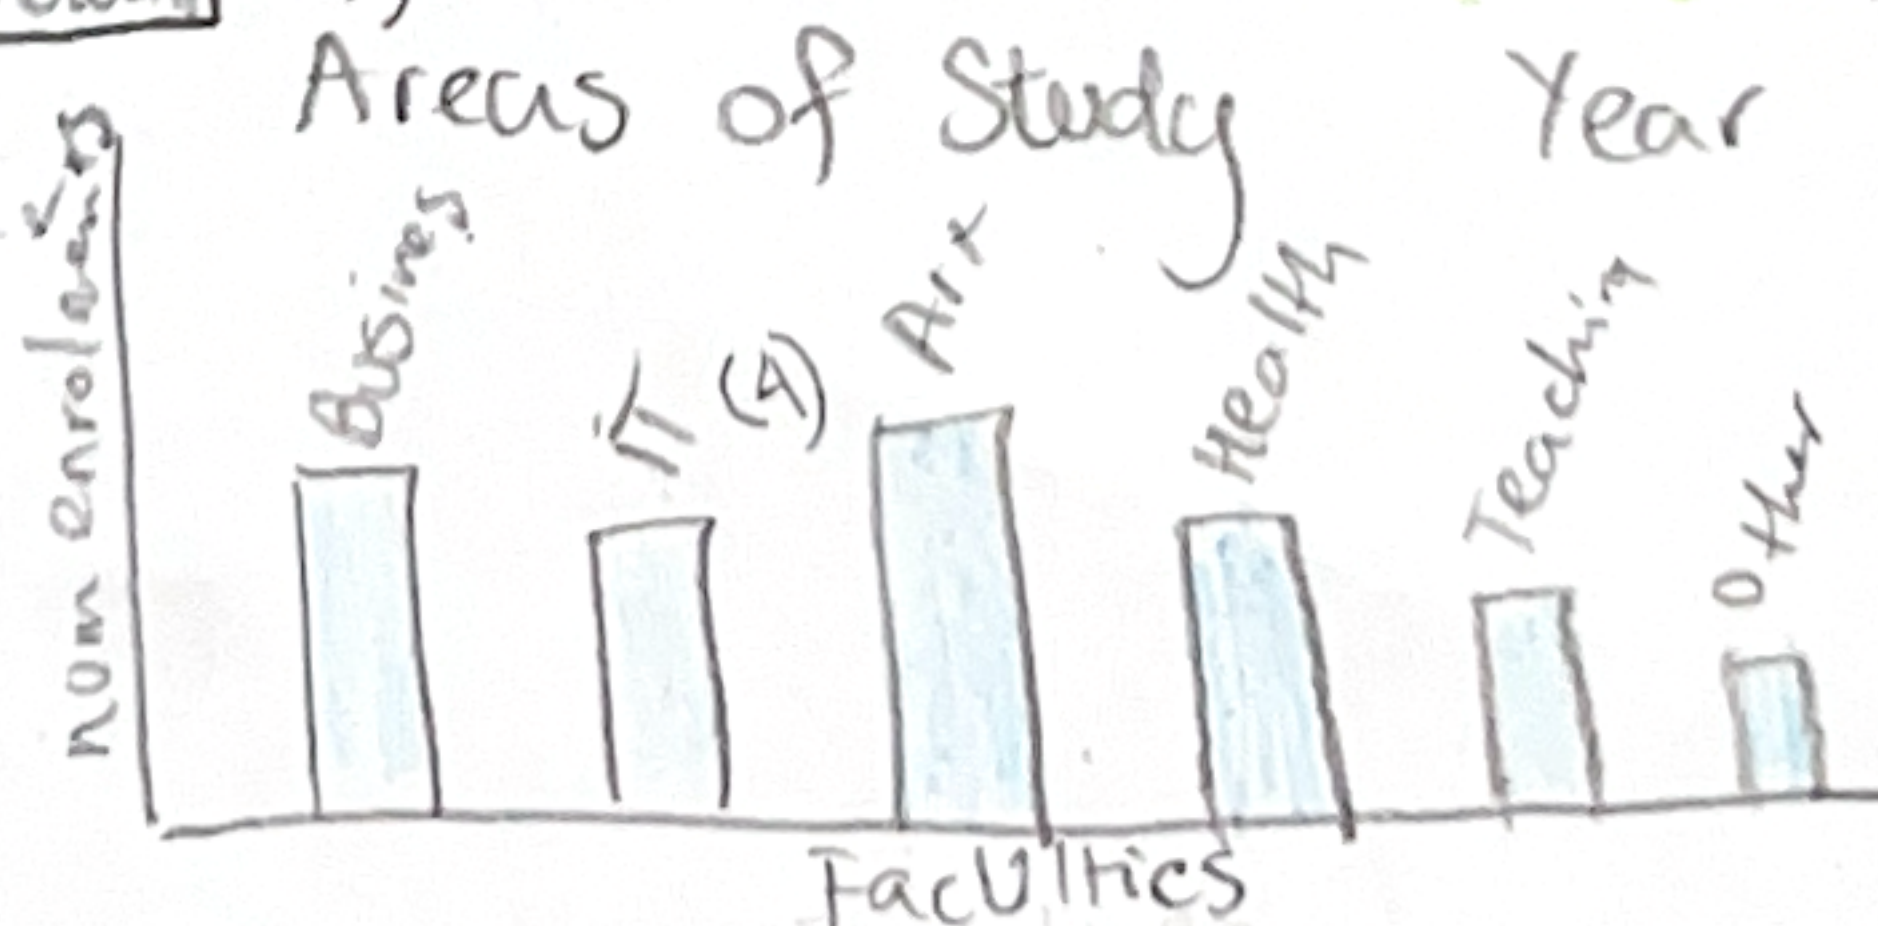

Discussion on
International
Students &
education as
an Aussie
export

Enrolments per Uni

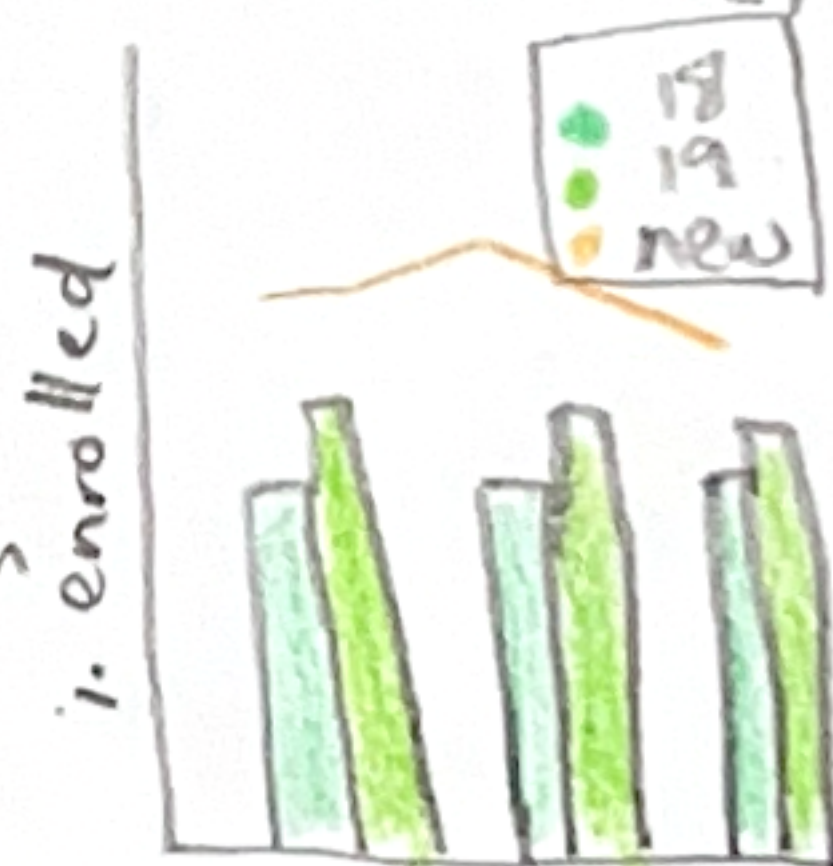

Select State: (3)

Discuss popular
Courses &
degrees

Aus Youth (1)

Tooltip will also
appear when data
is hovered over.

DETAILS

- Need to check all interactions can be done on vega lite
- Colour schemes need to be chosen from different palette over the visualisation
- Textboxes must be consistent font/size for info and make top and bottom row align.
- If freemap can't be made will need to create stacked bar chart.

FOCUS

- Main idea: to show enrolment choices of people going to Aus universities.
- I will try split the visualisation into 2 parts, general enrolment break downs (top half) and enrolment choices (where & what)
- Might include margins to make the difference clearer.

SUMMARY

Nina Flouch

Date: 20/10/25

Title: Australia's University Enrolments

OPERATIONS

- (1) Clickable legends/points on the graph
- (2) Slider to highlight countries with a certain amount of students in AUS
- (3) selection bar to spotlight a certain state at a time
- (4) Floating tooltip when selecting the faculty
